### **Profile**

- Great communication and leadership skills
- Great customer service skills
- Very comfortable with the following languages: Ruby, Rails, PHP, Javascript, JQuery, HTML5, CSS3, LessCss, SASS, MySQL
- Have experience with the following languages: Java, Android, Code Igniter, C, C++, Python, Bash, and MongoDB
- A love and talent for learning new languages, API's, frameworks, techniques, and ideologies
- Excellent IT problem solving and research skills

### **Experience**

#### **Sigil Development**

##### **Software Engineer, Systems Administrator, and Partner**

Denver, CO

4/12 to present

Partner and leader of the software development department

- Began as contractor expanding word press functionality for higher scope clients.
- Became leader of the software development team.
- Created a three tier solution set to suit different scope projects.
  - For lower scope projects I used a simple, PHP template and asset loading system that incorporated JQuery and twitter boot strap.
  - Using the above as a base, I met higher demands by hand coding PHP. For example, I created a gallery management system using Flickr.
  - For large scope projects I developed full Ruby on Rails applications. For example, I created a directory listing and news service.
- Led many client requirements meetings where I identified the technology and/or business problem the client was trying to solve and offered consultation on most effective solution.
- Responsible for leading the web team to completion of projects and maintaining customer relations.

#### **Restaurant and Service Industry**

##### **Assistant Manager, Server, and Bartender**

Denver, CO

5/03 to 4/12

Focused on client satisfaction and sales

- Assistant manager for 18 months of a family-owned start up that opened their doors with \$200 dollars. They are still in business.
- Worked in multiple restaurants developing excellent communication skills, work ethic, ability to resolve issues with difficult customers and employees, and excellent customer service skills.
